Founded in 1887 as the first all-graduate institution in the country, Clark University remains committed to its mission to develop dynamic students and professionals who make a positive impact on the lives, and livelihoods, of people throughout the world. Our motto — “Challenge Convention. Change Our World.” — is a theme that runs through every aspect of graduate education at Clark, from coursework and research to the personal interests and passions of our students, faculty, staff and alumni.

In choosing to pursue a dual degree at Clark, you will join diverse scholars and practitioners who are dedicated to understanding, defining and promoting social justice and socio-economic well-being locally, domestically, and internationally. You will benefit from:

- The individual guidance and mentorship of expert faculty
- Learning within a global community of students, researchers, professionals, entrepreneurs and activists
- A transdisciplinary approach to scholarship and practice, which encourages our faculty and students to integrate multiple perspectives, interests and approaches
- An emphasis on social, economic, and technical innovation, applied to real-world problems and opportunities

When you choose Clark, you will not only gain the experience of learning at our internationally renowned university located in Worcester, Massachusetts — you will be equipped to create new career goals and succeed in accomplishing them.

Clark’s location in the heart of New England offers quick access to the world’s major centers of innovative and intellectual activity in New York City and Boston.

Preparing you to address the complex environmental factors impacting global businesses
THE MASTER OF BUSINESS ADMINISTRATION AND MASTER OF SCIENCE IN ENVIRONMENTAL SCIENCE AND POLICY DUAL DEGREE WAS ESTABLISHED TO PREPARE PROFESSIONALS WHO HAVE BOTH A THOROUGH UNDERSTANDING OF ENVIRONMENTAL ISSUES FACING GLOBAL BUSINESSES AND THE MANAGERIAL CAPABILITIES TO EFFECTIVELY ADDRESS THEM.

A collaboration of the Graduate School of Management and the International Development, Community, and Environment Department, the program develops innovative professionals who collaborate to imagine and achieve sustainable futures.

Students apply knowledge and analytical methods from business and management science, natural science and social science, working with quantitative and qualitative data to understand the connections among economy, environment, technology, society, policy and development. Graduates go on to pursue jobs in environmental consulting, economic policy-making, entrepreneurial environmental leadership, sustainable technology businesses (e.g., renewable energy systems), nonprofit operations and management, corporate sustainability and more.

DUAL DEGREE
MBA/M.S. in Environmental Science and Policy

DUAL DEGREE REQUIREMENTS
The program requires between 19 and 24 course units (some of which may be waived depending upon individual circumstances) and can be completed in three years. All students complete the core of each individual degree and an integrating project in the capstone course at the end of the program. It actually takes less time to earn the two degrees than to pursue them separately, as the capstone and several electives count toward both.

APPLICATION DEADLINE:
January 15

APPLICATION REQUIREMENTS:
- Completed Graduate School Application
- Official transcripts from all previous undergraduate and/or graduate institutions
- Two letters of recommendation
- Résumé
- Statement of Purpose
- Official GRE or GMAT scores (optional)
- Official TOEFL scores*
- Application Fee ($75)

* Required only for international applicants.

Complete an application.
