Re: Comments Regarding PRS 405 Public Fact Sheet
Mund Plant, Ohio

Dear M. Lucas:

The Mansburg Mund Community Improvement Corporation (MCIC) appreciates the opportunity to review the Public Fact Sheet for PRS 405: Soil Contamination near Building 23. Our comments are included on the attached sheet. For your convenience, and where applicable, we have arranged the comments in two categories labeled "Substantive" and "Errata". The "Substantive" comments are ones that we believe are critical to our interpretation of the document. "Errata" comments are comments of an editorial nature and do not have a significant impact on the document.

If you have any questions, please contact me.

Sincerely,

MCIC

Daniel D Bird, FAICP
Planning Manager

MMCIC Comments

Subject	PRS 405: Soil Contamination - Building 23 Public Fact Sheet
Version	Public Review Draft April 22, 2004

Substantive Comments

1. It is our understanding from the review of the Public Fact Sheet that the cleanup will be in conjunction with the cleanup for radiological contamination described in the Underground Line (UGL) Removal Action. As you are aware, proper cleanup of all underground lines is of paramount concern for MMCIC. MMCIC would request updates of any pertinent information regarding this removal action during the removal activity. In addition, MMCIC would request a copy of the OSC report documenting the cleanup.
2. If MMCIC's understandings are correct, no specific response to the above comment is necessary, and MMCIC further understands these comments will be included in the final Building Data Package.

Errata

1. No Comments.

Daniel D. Bird, FAICP
Planning Manager
MMCIC
