STUDENT SUSTAINABILITY FUND
Draft Project Application: Statement of Interest

The Student Sustainability Fund is a resource for the advancement of sustainable infrastructure and practices within the Clark community.

The SSF allocates money to fund projects that will maximize the quantifiable impact of each student dollar, will be visible to and impact a great number of students, and will help to establish Clark University as a leader in sustainable practices. Projects will be balanced in areas relating to environmental and energy responsibilities as well as economic, social, and educational areas. Most importantly it must have S.M.A.R.T. Objectives: Specific, Measurable, Agreed-upon, Realistic, and Timely and MUST meet the criteria outlined in the Student Sustainability Fund Guidelines. (clarku.edu/offices/campussustainability/pdfs/Student_Sustainability_Fund.pdf)

DEADLINE: October 1, 2016
SUBMIT TO: SSF@ClarkU.edu or drop off at Sustainable Clark, Gates House, 24 Charlotte St. ELIGIBILITY: Only undergraduate students, BUT they are required to partner with faculty, staff, academic departments, graduate students, or registered student organizations as applicable.

Project Overview
1. Describe the project goals, the need on campus, and how the project will address that need (bullets appropriate for goals; approx. 250 words)

2. Describe the role of your partnering organization in the project (250 words)
3. Briefly describe your vision for longevity and permanence of the project’s results on campus. How does the project compare to other projects/initiatives at Clark or elsewhere? (250 words)

4. All projects receiving money from the Student Sustainability Fund are required to reduce Clark University’s operational impact on the environment. How do you believe your project will address and accomplish this? (250 words)
