Whenever possible, all Graduate Summer Housing assignments will be the same as your current/intended assignment. For example, if you live in 926 Main Street now, you will remain in your room for Summer Housing. Likewise if you are assigned to 926 Main Street for the fall we will try to place you into that room for Summer as well. However, due to maintenance work, some graduate summer housing may be and therefore residents in those locations will need to be reassigned to another house for part or all of the summer. If your summer housing assignment is unavailable we will contact you prior to the start of the summer.

SPECIAL REQUEST: (Please indicate if you have a special need, apartment preference, student group, etc.)

***Please note that summer graduate housing residents are held to the same standards of conduct as academic year residents. The terms of the Code of Student Conduct and the 2011-2012 Student Handbook apply to all summer residents. All new students who move into their Graduate Assignment early for Graduate Summer Housing are financially committed to the full 2011-2012 Graduate Housing Contract.**
