Voice Commands

The system will open your mailbox and play the voice mail messages. Here are a few useful voice commands while listening to your voice mail:

“Next” Plays the next voice mail message
“Previous” Plays the previous voice mail message
“Delete Message” Deletes the current voice mail message
“Forward” Forwards the voice mail to another user
“Faster” Plays the current voice mail message faster
“Slow down” Plays the current voice mail message more slowly
“Pause” Pauses the current voice mail message
“Repeat” Repeats the current voice mail message
“Main Menu” Exits to the main menu

Tip: If you delete a voice mail message here, you won’t be able to undelete the message using the telephone, but you can still access it in your Deleted Items folder in Outlook.
