5th Annual TCK/Global Nomads Conference:
Navigating the World with Evolving Identities

CALL FOR PROPOSALS

Introduction

A Global Nomad or Third Culture Kid (TCK) is a person of any age or nationality who has lived a significant part of their developmental years in one or more countries outside their parents’ culture(s) because of a parent’s occupation. Children raised as global nomads can be the offspring of diplomatic, international business, government agency, international agency, missionary, or military personnel, or indeed of people living internationally mobile lives for any professional reason.

Conference Theme and Proposal Submission

Our team encourages you to submit a presentation proposal for the 2017 Third Culture Kids & Global Nomads Annual Conference at Clark University in Worcester, MA. The conference theme this year is “Navigating the World with Evolving Identities.” The TCK/Global Nomads Conference Team is seeking proposals that reflect global topics and TCK topics such as the complexities of “home,” the concept of having change as a constant, and finding one’s own identity. In response to feedback on past conferences, we are looking for presentations that are either academic or workshop style. This way, we can create spaces for sharing, reflection, and learning.

Proposals due by January 8th, 2017

To submit a proposal, please visit this link:
